Hi,
KO: Fig 12: please eliminate "relative" from the MSE legend
Fig 13: Danny is asking to mark each decade in the vertical axis.
Keep name b_j for the bias.

-- I changed the background to B_i since the bias is always called b_j.
-- Added also the mention to Fig 13 (not 3) to the text.
-- I also introduced this name $\delta\Phi^{\text{Best,fit}}_j$ earlier in the text, starting at the top of page 5, and subsequently (including appendix D) Please search for $\Phi^{\text{Best,fit}}$ and see if I missed any place where we should use the name.

If after Ko introduces the two changes proposed by Danny (one in Fig 12 and another in 13) we are all OK with the texts as it is, I will eliminate the color blue and we are ready to resubmit v2 to the arXiv.

Best,
Graciela
